

Earn While You Learn!

Start working now with flexible, part-time hours that fit your school schedule, with the ability to convert to full-time after you graduate.

SkyWater is hiring maintenance technicians to start immediately.

We will jump start your career in a culture of continuous learning. Equipment maintenance technicians are responsible for repair and upgrades on our high-precision equipment used to design and manufacture computer chips. We offer tuition reimbursement, paid personal time off, and short-term incentive bonus for students working 20+ hours per week with opportunities to learn from a mentor.

- Must be enrolled in an accredited associate degree program in STEM/engineering.
- Strong desire to troubleshoot, repair and upgrade equipment.

Start working now!

If you're curious, and searching for an exciting culture where you can grow, work on the latest equipment, and make a big impact, consider joining SkyWater!
