We streamline the concept-to-production journey

About SkyWater Technology

SkyWater (NASDAQ: SKYT) is a U.S.-based semiconductor manufacturer and a DMEA-accredited Category 1A Trusted Supplier. SkyWater's Technology as a Service model streamlines the path to production for customers with development services, volume production and heterogeneous integration solutions in its advanced U.S. facilities. This pioneering model enables innovators to co-create the next wave of technology with diverse categories including mixed-signal CMOS, ROICs, rad-hard ICs, MEMS, superconducting ICs, photonics, and advanced packaging. SkyWater serves growing markets including aerospace & defense, automotive, biomedical, advanced compute, industrial and IoT. For more information, visit www.skywatertechnology.com/.

SkyWater Minnesota

Operations

- 200 mm equipment
- 91,000 ft^2 cleanroom (class 10 + SMIF)
- Capacity: 10,000 30 ML CMOS wafers/month or 50,000 MOSFET wafers/month
- 90 nm+ features

Certifications

- ISO 9001 Quality Management System
- ISO 9100/IATF 16949 Automotive
- AS9100 Aerospace
- ISO 14001 Environmental
- ISO 13485 Medical
- ITAR Registered and DEMA Cat 1A Trusted Supplier

SkyWater Florida

Operations

- 200 mm/300 mm equipment
- 35,400 ft^2 of cleanroom (class 1,000 & class 10,000)
- Facility will enable custom heterogeneous integration solutions

Certifications

- ISO 9001 Quality Management System
- DMEA Cat 1A Trusted Supplier
